Assessment of Git Practice.

You can answer these questions based on the Git practices that you are following for your project this semester. These are the seven checklist questions discussed in the class.

- 1) Are you pushing to a single remote repo (on e.g., GitHub) shared by the team? **Yes we are planning to push to a sinle repo called BBB**
- 2) Are you using one branch per feature? **Yes we plan to use one branch to save progress**
- 3) Are you using multiple commits per branch, to save progress? **Yes we are committing as we go**
- 4) Are you using good descriptions for each commit? **Yes try to explain each commit to the best of our abilities**
- 5) Are you discarding branches when that feature is done? **No for the time being we are not we may have future use for them**
- 6) Are you doing a pull before merging or pushing to main, to minimize conflicts? **Yes we are**
- 7) Are you deploying from main, or creating separate release branches? **Deploying from main**

Please submit your answers in a word document and upload it on D2L.
